Carbon Footprint Statement

Strategic Commitment to Decarbonization

At **BTSA**, sustainability is a strategic pillar of our operations. That is why we have quantified our **2025 carbon footprint** in accordance with the **GHG Protocol**, verified by **TÜV SÜD**, reaffirming our commitment to environmental transparency.

Carbon Footprint 2025

Scope of Emissions	Emissions (tCO ₂ e)	% of Total
Scope 1	22,92	0,90%
Scope 2 (market-based*)	3,38	0,13%
Scope 3	2.507,70	98,96%
TOTAL (Scopes 1 + 2 + 3)	2.534,00	100%

*Our Scope 2 emissions reflect the use of 100% renewable energy through power purchase agreements and on-site solar power generation.

Decarbonization Milestones

Production Intensity Ratio

5,26

tCO₂e per ton
of finished product

2030: Absolute Reduction 42%

Reduce Scope 1 and 2 emissions to 15.25 tCO₂e

2030: Intensity -15%

Reduce from 5.26 to 4.47 tCO₂e per ton produced.

2050: Net Zero Commitment

Full carbon neutrality across our entire value chain.

We align our decarbonization strategy with the **SBTi's 1.5°C** initiative.
