oxabiol.

Oxabiol®: Natural Protection for Calcium Soaps

Calcium soaps are a key protected fat source in ruminant nutrition, but their high lipid content makes them highly susceptible to oxidation, which can reduce energy value, feed quality and animal performance.

At BTSA we offer Oxabiol®, a natural tocopherol-based antioxidant that protects calcium soaps from oxidation while adding the nutritional benefits of natural Vitamin E.

Oxabiol®

reliable & versatile performance

- Prevents **fat oxidation**
- Preserves **energy value**
- Improves **feed stability**
- Supplies **natural vitamin E**
- **Replaces synthetic** antioxidants
