oxabiol.

Natural Vitamin E for Optimal Equine Health

Vitamin E is a **vital antioxidant** that protects muscle cells, supports immune and neurological function, and contributes to reproductive health in horses. As they cannot synthesize it, **supplementation, especially with natural vitamin E,** can be crucial when fresh pasture is limited.

At Btsa We Offer Oxabiol® E, a high-purity, 100% natural vitamin E specifically designed for animal nutrition. Thanks to its superior bioavailability and biological activity, it quickly and effectively raises plasma vitamin E levels, ensuring optimal antioxidant protection for performance, recovery, and overall well-being in horses.

Oxabiol® E

reliable & versatile performance

- Delivers **rapid and sustained improvement** in antioxidant status
- Supports **muscle integrity, immune defense, neurological health, and reproductive performance**
- **Easy incorporation** into feed programs with **liquid and powder formats**
