oxabiol.

Your Ally for Omega-3 Pet Supplements

Omega-3s from fish oils and microalgae are essential for **pets' skin, coat, joints, and brain health**, but their high susceptibility to oxidation can cause rancid odors, nutrient loss, and compromise functional claims.

At BTSA, we offer OXABIOL®, a natural tocopherol-based antioxidant that protects sensitive Omega-3 oils, prevents rancid odors, preserves EPA/DHA, maintains health claims, and keeps pet supplements stable, effective, and clean-label friendly.

Oxabiol®

reliable & versatile performance

- Protects **EPA & DHA**
- Prevents **rancid odors**
- Maintains **health claims**
- Ideal for **functional pet diets**
