

tocobiol.

Unique, Effective, Organic

The world's first certified Organic
Tocopherol-based Antioxidant

The food industry is shifting to organic ingredients due to rising demand for sustainable options.

Preserving bakery products is challenging due to fat oxidation, especially in organic products with strict limits on additives. Natural antioxidants are essential to maintain freshness and quality.

Tocobiol® Organic is the first tocopherol-based antioxidant certified organic under the National Organic Program (NOP) of the United States Department of Agriculture (USDA).

This product meets strict organic standards, ideal for creating clean-label, health-conscious foods.

Tocobiol® Organic

reliable & versatile

- High Antioxidant Performance
- Unlimited use in organic products
- No effect on the final product's color or smell
- Customized laboratory studies
