Protect Your Nut & Seed Butters from Rancidity

Nut and seed spreads are highly susceptible to oxidation, which can affect flavor, color, and shelf-life. Ensuring stability is key to maintaining premium quality. Natural solutions are essential for long-lasting freshness.

At BTSA, we offer Tocobiol[®], is a natural tocopherol-based solution designed to protect nut and seed butters from rancidity. It helps maintain flavor, color, and nutritional quality while extending shelf life. Ideal for peanut, almond, hazelnut, and other spreads, Tocobiol[®] ensures your formulations stay fresh and appealing, naturally.

Tocobiol[®]

reliable & versatile performance

- Natural antioxidant protection
- Preserves fat fraction
- Preserves flavor and aroma
- Maintains nutritional quality
- Extends shelf-life naturally
